Time: 06:30am Place: Namadachilume (Devarayana durga state reserve forest)

REPORT

About the Workshop:

Dr.SalimAli, was one of the best Ornithologist in India. On the request of rulers of Mysore, Dr Salim Ali conducted survey of birds and habitat spread over Eight district ruled by Mysore Kings. He has identified 66 Species in Devarayanadurga state forest during their survey from 31 Dec1939 to 4 Jan 1940. We wish to remember the contribution made by this great man in conservation of birds, and to recall his foot prints 80 years back. This workshop height light on Dr.Salim Ali Visit to Tumkur along with Introduction to birds.

Workshop Themes:

- Birds Identification Techniques
- · Birds Survey.
- Birds Diversity.
- Nesting Behaviour.
- Comparision of Dr.Salim Ali Identified birds with present birds Checklist

Devarayana durga state reserve forest is a pride of every Tumkurian, where the bird man visited 80 years ago and stayed for 4 days i.e., from 31 Dec 1939 to 4 Jan 1940, He surveyed 66 birds and made our reserve forest even more pride.

A visit to Namadachilume for bird view as a bird viewer, Organised by Department of Zoology in association with Wildlife Aware Nature Club Tumkur. In Commemoration of Dr.Salim Ali's visit to Devarayana durga State forest.

We gathered around at 6:00 am in our College started from the college at 6:15 am with good wishes of our Vice Chancellor Prof. Y S Siddegowda and Principal B R.Shalini. With the guidance and company of our teachers Dr. Parimala HOD and Ravikiran K. M. Lecturer. We reached our destination Namadachilume at 6:30am.

They gave us bird brochures for preliminary identification and caps. Then we assembled and they gave introduction about programme and schedule for the day. They made us in to several groups by allotting resource persons. We started birding, we learnt about the techniques regarding the identification of the position of birds on trees, color, and size and nesting activities. All these made our visit the most interesting. There we were able to identify the

fascinating birds about more than 20 in numbers, the birds like Spotted dove, Purple sunbird, Copperation of the control of th fascinating birds about more than 20 in numbers, the characteristic Red Wiskered bulbul, Red venish barbet, Cuckoo Stricker, Common myna, Green bee eater, Red Wiskered bulbul, Red venish barbet, Cuckoo Stricker, Common myna, Green tit, Yellow vented flower pecker, Indian robin. smith barbet, Cuckoo Stricker, Common myna, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Great tit, Yellow vented flower pecker, Indian robin, Kobulbul, Common Iora, Wood swallow, Iora barbat. Black Kite, Brahminy kite, White cheaked barbet.

We observed different butterflies Blue fancy, Yellow fancy, Lemon fancy, Three ringed grassy, The observed different butterflies Blue fancy, Yellow fancy, Lemon fancy, Three ringed grassy, The observed different butterflies Blue fancy, Yellow fancy, Lemon fancy, Three ringed grassy, The observed different butterflies Blue fancy, Yellow fancy, Lemon fancy, Three ringed grassy, Three ri We observed different butterflies Blue lancy, Tender Tapdoor spider, Green Grasshopper, Stick ringed grassy, Tiger butterfly. And few insects like Tapdoor spider, Green Grasshopper, Stick grasshopper, Wild housefly.

We were astonished by the stories narrated by them, about the birds. They not only explained about the birds. the birds but also about many things which we were not aware off.

After bird view, we had our breakfast. Then there was a formal function in the presence of Ac After bird view, we had our breaklast. Then the bird view is the bird view of the bird view is the bird view in the bird view in the bird view is the bird view in the bird view in the bird view is the bird view in the bird view in the bird view in the bird view is the bird view in the he was from an agricultural background and belongs to Chikkmangalur native. The people of his native were been facing a huge problem of crops destruction by elephants and he was one among those who used to do some techniques for elephant to run off from the fields.

As the irony of life he was how being on his profession as ACF, have to conserve these animals and plants as rich source of our biodiversity. He lastly said that how a person used to harm wildlife for his benefits was now being a protector, and also gave us a wonderful message that to be a part of wildlife conservation and conveyed how this gifted creatures and we the humans are equal in the eyes of mother nature. At last he surprisingly said that "Today we gathered at the same place where Dr. Salin Ali had been stayed and did his work. We were been glad that our purpose of birding has been fulfilled.

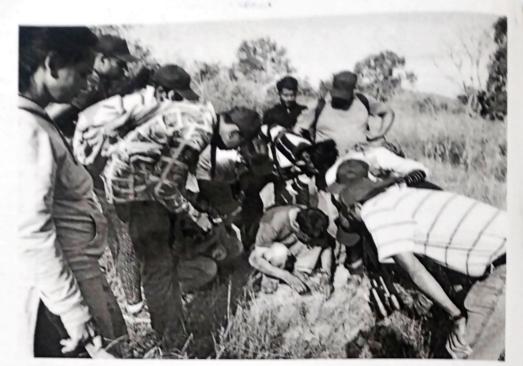

After ACF sharing his wonderful words, the feedback asked to the viewers and one among them our beloved HOD Dr. Parimala. B gave feedback about the day and wonderful creatures, she mentioned that our college requires a great activity like this and explained that how pupil of our college was much interested by the talk of Dr. Mahesh given on the day before. She whole heartedly thanked the Wildlife Nature Club members to give the talk about of our incredible creatures and their importance frequently by organizing in our college. And even some of the viewer's gave their feedback about the day. We depart at 12:45pm from Namadachilume.
