Aeramic Aerospace

Aeramic Aerospace (India) Pvt. Ltd. Is an AS9100 Rev D certified Company headquartered in Bangalore, India. The company is having an engineering led, integrated manufacturing facility that exceeds the Global Aerospace visual standards. The company is taken exceptional care about the workforce by forming a team of highly-motivated, innovative engineers and professionals who are technically proficient and have the highest experience & expertise in the field of Aerospace.

Industry vision:

To be the leading supplier in the field of aerospace by providing highest quality products and services.

Industry Mission

Our mission is to sustain our vision by evolving as a preferred supplier through continuous advancement in technological and processes in order to exceed our customers satisfaction in terms of quality, delivery, cost and commitment.

Capabilities

Their facility is equipped with wide array of 3axis and 4 axis, 5axis high speed milling machines turn-Mill machines and EDM machines.

High Speed CNC Machining

CNC MILLING:

- Capacity: Maximum Size up to: 2.0 meters

ಪ್ರಾಂಶುಪಾಲರು
ವಿಶ್ವವಿದ್ಯಾನಿಲಯ ವಿಜ್ಞಾನ ಕಾಲೇಜು
ತುಮಕೂರು-572103

CNC TURNING:

- Capacity: Maximum Size up to Die: 500mm and 1000mm long

Assembly

We have a Dedicated Assembly area with best-in-class equipment's to carry out major assemblies and sub- assemblies.

Inspection

Aeramic Aerospace lab is upgraded with latest equipment's and well experienced quality team to carry out in-line inspection and final inspections.

Our quality teams are well experienced in inspection aspects of International Aerospace quality requirements.

Staff

Aeramic Aerospace lab is upgraded with latest equipment's and well experienced quality team to carry out in-line inspection and final inspections.

Our quality teams are well experienced in inspection aspects of International Aerospace quality requirements.

What we learnt

- Aeramic Aerospace have a dedicated supply chain department that are:
- Well experienced in packaging with international best practices.
- Ships daily around the globe.
- Having a very close understanding with export control requirements

LTA with material suppliers and Special Process Suppliers

Raw material:

- AMS Grade Materials Directly Imported From U.S.A and U.K and Singapore
 - Standard Parts and Primer Imported From U.S.A and U.K
- We import all the materials from the customer approved sources.

Special process:

- Special Process and NDT From NADCAP Accredited Source -Bangalore.
- All Types of Heat Treatment Process from NADCAP Accredited Source – Bangalore.

Logistic:

We have dedicated Logistics partners for imports and exports.

Conclusion:

I collected information from my friends , which makes me more imaginable about the industry and I felt I missed the great opportunity , I am very regretting on that.

REPORT

Birds watching was organised by Tumkur Vignana Kendra and Avani Academy for Nature Trust ® Tumkur. On 12.2.23, to set on awareness about the importance of birds in our ecosystem where they play an important role in the Food chain and as a pollinators. On that day we visited Gangasandra lake near Gangasandra, Tumkur. We were about 25 members from our college were participated in that Program and gained ample of knowledge about birds and how to identify them. We were guided by two Resourceful persons, they helped us to identify about 36 different varieties of birds. At the end we were provided with the tiffin and dispersed.
